

## Corporation of the Village of Sundridge

**MEMO TO:** Mayor, Deputy Mayor and Council  
**FROM:** Christine Hickey, Deputy Clerk  
**DATE:** April 14, 2021  
**SUBJECT:** Edgar Street Park – Public Information Session – Update to Residents

---

### **BACKGROUND/ANALYSIS**

Council directed Staff to proceed with a Zoning Application for Edgar Street Park (from Residential R1 to Open Space to permit a Community Park) on October 28, 2020. The Zoning Application was completed on March 8, 2021 with no appeals received.

At this meeting, a report was presented to Council with approximate costs associated and options to complete the park all at once or implement in phases. Council approved the implementation of the park in phases.

In November 2020, Funding was released with specific guidelines for eligible projects. Staff were advised that 100,000 was allotted to the Village of Sundridge for a project that would meet the requirements, Council directed staff to submit an application for the proposed Edgar Street Park. Currently, the Village is waiting for Confirmation that our project is successful. If the funding is awarded the park will be completed in one phase, if our proposal is not eligible and the funding is denied, the park will proceed in phases to allow money to be allotted over a few years.

In order to proceed with the park and submit for funding, a proposed layout was required and has been used as the conceptual drawing. At this time, prior to construction commencing, Council is looking for any additional feedback on the current proposed layout and any other ideas or comments on the design or elements for consideration through a virtual public information session. These suggestions will be considered and may be implemented at this time or as part of future improvements to the park if the request is feasible and/or falls within the parameters of the funding agreement (if applicable).

- 1) Basketball Court
  - 2) Gazebo (to include picnic tables)
  - 3) Parking
  - 4) Walking Trails
- \* Play Infrastructure, Seating, Signage and Lighting to be included
