

Official Plan Consultation Date: June 29th, 2021

The Village of Sundridge is undertaking the creation of an Official Plan. The Official Plan is one of the primary tools to direct the land use planning actions of local government, shape development decisions and manage growth in the short and long-term.

The first phase in the creation of an Official Plan is the visioning workshop where questions, comments and discussions will take place to identify key issues that residents wish to address through the creation of the Official Plan.

Telephone appointments with the municipal planner are being scheduled.

If you would like an opportunity to speak with the planner, please send an email to the Clerk Administrator Nancy Austin at naustin@sundridge.ca with your name and daytime contact number.
